## Company History

Spas Recycling Pvt Ltd was founded in 2010 by Mr. Anil Singh (B.Sc.) as per excellence who graduated from Mumbai, India and his wife Mrs. Uma Singh (B.Com., BCA) Kolkata, India. They have a combine experience that helped them in building Spas Recycling Pvt Ltd to favourably compete with other leading recycling companies in the India and throughout the globe.

## What We Do

Spas Recycling Pvt Ltd is a India based, SPCB, CPCB authorised certified recycling company with strong bias for electronic waste, metal scrap, battery waste recycling. We have been able to secure a standard and well – positioned facility in Pratapgarh, Uttar Pradesh, India and have 22 collection centres all over India. Our plants are well positioned and highly suitable for all kind of e-waste, metal and battery recycling.

We are in the e-waste, metal scrap, battery waste recycling industry to contribute our quota in saving the earth and also to compete in the highly competitive recycling industry not only in India, but also throughout the world.

Spas Recycling Pvt Ltd is initially be involved in the recycling of electronic waste, metal scrap, battery waste materials but in the nearest future we will engage in the recycling of other materials also. Our business goal is to become one of the leading recycling companies in India.

## Executive Summary

Our workers are selected from a pool of certified and highly experienced recycling engineers and technicians throughout India. We make sure that all the members of our workforce are gone through the required trainings that will position them to meet the expectation of the companies in India and throughout the globe.

Our client's best interest will always come first, and everything we do will be guided by our values and professional ethics. We will ensure that we hold ourselves accountable to the highest standards by meeting our client's needs precisely and completely.

We cultivate a working environment that provides a human, a sustainable approach to earn a living, and living in our world, for all our partners, employees and for our clients.

## Our Vision Statement

One of our main objectives is to contribute to a clean and healthy environment using an integrated approach to waste management and our vision is to become the preferred waste management company for the region and to develop a global brand that will partner with our stakeholders and communities to manage & reduce waste from collection to disposal while recovering valuable resources and creating clean, renewable energy.

## Our Mission Statement

Our mission is to proactively anticipate the increasing demand for assistance in the field of waste management, comply with local and national laws and to do business in an environmentally friendly manner within an integrated waste management framework. To maintain a steady but profitable growth based on our core values by providing value for money to the clients and communities that we serve through our people.

## Our Values

Spas Recycling Pvt Ltd delivers a set of comprehensive and high-quality recycling services and refurbished products across multidisciplinary contexts based on our principles and nationally accepted best practices, adaptability to client's needs and sustainability to all our activities.

## Our Quality policies

Spas Recycling Pvt Ltd has implemented a Secure, Quality and an Environmental Management System and has been certified according to ISO 9001:2015, ISO 14001:2015, OHSAS 18001: 2007, ISO 20000:2018, ISO 27001:2013 by an Independent Certification Body and thus, offers key principles for the protection of the environment and demonstrates an exemplary environmental performance.

## Why to Recycle

- For the first 3 years, your electronic assets have some remarket value, but remember that each month that passes, it depreciates even more.
- By allowing the devices to depreciate past 3 years, starts costing the company storage space. You are giving up space for old redundant electronics instead of things that are cost improving.
- All of those devices have important data on and keeping it opens the door to people getting access to valuable company information.
- A lot could happen to the storage area: flood, fire, theft, accident. These will effectively minimise the resell value should something happen whilst in storage.
- If you've been storing these devices because you don't know what to do with them, then contact Spas Recycling Pvt Ltd. We are extreme's in the IT recycling business, by offering a free collection for any and all electronic devices, may it be obsolete/repairable/ depreciated and or unwanted.
- We thrive on the 5R cycle and will go the extra mile to assist in keeping our environment clean. REDUCE, REUSE, RESTORE, RESELL, RECYCLE

## Sustainable Agreement

- Spas Recycling Pvt Ltd will collect goods for refurbishing, recycling and destruction, nationwide.
- Collections all over India will be provided free of charge to client.
- We guarantee that all goods collected are processed and recycled according to National Legislation and that Spas Recycling Pvt Ltd is accredited by SPCB and CPCB
- Spas Recycling Pvt Ltd will do a e-waste audit of the items collected if required from the client on site and serial numbers of items will be recorded.
- All recycling certificate and reports required will be issued within
- 7 working days after collection.
- We will be bound by our confidentiality obligation, towards our client's needs.
- Our collections are usually e-waste within 24-72 hours of initial contact. The only criteria is to have 10 or more items consisting of desktop PCs, laptops, monitors, servers and printers. If you have less than 10 items, please get in touch and we will do our best to help you. Avail our computer recycling services for old computers and IT equipment
